SERVING THE WHITEWATER INDUSTRY, WORLDWIDE, SINCE 1982.

· *HYSIDE* ·

WE BELIEVE IN
RESILIENCE

RESILIENCE.

IT'S ONE THING 2020 HAS REMINDED US OF.

The ability to weather a storm, to bounce back after being tested, is everything, not just in life, but especially on the water.

It's reminded us why we do this. We focus on quality, so you can focus on what's in front of you, whatever it may be. For the families and friends on a 21 day Grand trip, we do this for you. For those Outfitters in remote locations, where failure is not an option, we do this for you. For the Outfitter businesses, working through a crazy season, dealing with everything on your plate, we do this for you.

HERE'S TO 2021. STAY RESILIENT.

World Patagonia Expeditions on the Futaleufú River in Chilean Patagonia.

SERVING THE WHITEWATER INDUSTRY, WORLDWIDE, SINCE 1982.

WHETHER YOU'RE A COMMERCIAL OUTFITTER RUNNING 200+ TRIPS A YEAR

or a **weekend warrior** heading on your next Grand Canyon trip,
The **Outfitter Series** has something for you.

The **Outfitter Series** includes all the mainstream models that are a top fit for all needs. With a wide variety of options, from 9' play boats, like the Mini-Me, to multi-day gear haulers, like our **Outfitter 14.0XT**, the Outfitter series delivers the best blend of performance, durability, and value rolled into one.

HY-ER STANDARDS

ANY RIVER. ANY ADVENTURE.

HYSIDE GETS YOU THERE & BACK.

Urethane Bottom Chafers

Slick and strong to glide over anything in your way. When applied to Hypalon, you get the best of both worlds... Rugged durability and ultimate abrasion resistance.

Unmatched Tear Strength

You're floating on dependability with our Double Denier nylon base fabric. It's braided prior to weaving, creating the toughest tear strength available.

Triple Bonded Seams

Above and beyond the norm, our seams have 3 overlays. An inside seam, main seam, and outside seam provide triple the protection, triple the air retention.

Durable Hypalon Coating

Our burly rubber coating beats out PVC in durability, longevity, abrasion, and UV resistance.

PRO 18.0 & CATARAFT 16.0 PICTURED

PRO SERIES

THE PRO SERIES adds extra tear strength throughout. Our experience with 16-30ft gear boats has helped us engineer Kevlar add-on fabrics that protect huge Grand Canyon boats. *Ask us!*

Model	SKU	Length	Width	Tube Diam.	Int. Width	Straight Section	Kick	Chambers	Thwarts	Frame Chafers	D-Rings	Handles	Fabric Denier	Max Crew	Weight in lbs.	MSRP
PRO 13.0	156ASB3U	13' 0"	6' 2"	19"	36"	76"	27"	8	3	Y	8	6	2520	7	115	\$4,995

PRO 14.8	175ASB4U	14' 9"	6' 4"	20"	35"	94"	30"	9	4	Y	8	6	2520	10	136	\$5,995
PRO 15.0	180ASBU	15' 0"	7' 0"	21"	42"	81"	32"	5	0	Y	16	6	2520	10	129	\$5,995
PRO 16.0	191ASB4U	15' 10"	6' 10"	21"	40"	91"	32"	9	4	Y	8	6	2520	10	152	\$6,450

All HYSIDES are handcrafted. Actual measurements can vary 3-5%.

BOMB-PROOF IS CLOSER TO THE TRUTH THAN YOU MIGHT THINK...

Produced in-house, our Tank Tough base fabric got its start during the Korean War (1950s). It was used to build pontoons for bridges and tank carriers, where failure was not an option. Standing the test of time, these same indestructible properties keep HYSIDES thriving in the harshest of conditions.

Typically only produced from Pre-season orders, models in this series are all very specific to the needs of the outfitter operating them. The PRO series is a cumulation of the most popular, custom outfitter models over the years. Specific needs require specific technology to get the job done right. If you're looking for boats in this category, we typically sit down with a CAD drawing and map out dimensions as well as the location of D-rings and extra urethane in heavy-wear areas. In addition, we now offer the option of Kevlar as a lightweight armor under the urethane coating.

LIVERY SERIES

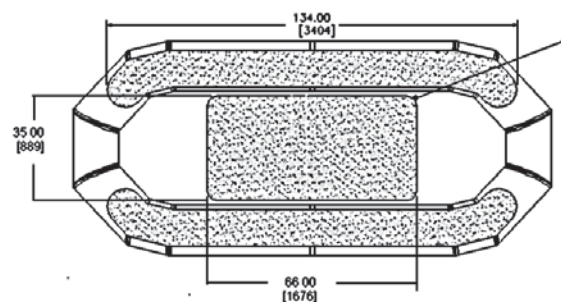

THE NON-BAILING LIVERY SERIES

evolved in the rental market. Building a boat that stands up to the abuses of daily rental was no small task. The design has become a favorite of fishermen as well as paddlers out for a casual float.

What separates us from the rest, when it comes to the Livery boats, is that while others skimp, we still build them with the same quality as our Outfitter and Pro line. Urethane bottom chafers are standard, as are triple glue-bonded seams and more main chambers than the competition!

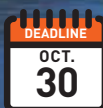

Built to last long and handle the everyday abuse of your rental customers!

Common custom feature "H" Pattern of Urethane prevents wear

THE BATTLE CAT

THE SPAWN OF OUR PADDLECAT & NEW NIMBUS TUBE DESIGN.

New for 2021! Our wave destroyin',
line stickin', BattleCat!

Caitlin Wyman of Inflatable Technologies and
friend tackle the Numbers section on the
Arkansas River, in Colorado.
photo: luke@whitewaterphotography.com

**WAVES DON'T STAND A CHANCE WITH THE BATTLECAT'S
INCREASED KICK PROFILE AND CONTINUOUS CURVE DESIGN.**

We reduced tube size to 19" to gain more waterline for better tracking,
while still retaining responsiveness. **The BattleCat** comes equipped with
the following standard features: 4 main chambers, 4 carry handles,
extra bail holes in the floor and a removable inflatable footbrace.
